
RUVARI
THE ART OF LEGACY
Security. Smart Living.
Energy.
One partner. Complete solutions, designed, supplied, installed and supported around the way you live and work.

COMPLETE SOLUTIONS BY RUVARI

One Partner. Complete Solutions.

RUVARI brings security, smart automation and energy solutions together under one roof. From a single system to a fully integrated solution, we design and implement technology around the way you live and work.

01	02	03	04	05
Design	Supply	Installation	Integration	Support

At RUVARI, we don't simply supply individual products. We design complete solutions based on your space, requirements and budget — from system selection and installation to integration, configuration and after-sales support.

Security	Smart Living	Energy
CCTV Surveillance	Gate Automation & Barriers	Solar Power Systems
Door Access Control	Smart Door & Digital Locks	Solar Energy Storage
Biometric Attendance Systems	Smart Lighting Automation	Energy Management
Video Door Phone & Intercom	Curtain & Blind Automation	Solar & Backup Power
Fire Alarm & Fire Detection	Smart Sensors	Energy-Efficient Solutions
Security Sensors & Intrusion Detection	Smart Home & Office Integration	
Alarm & Security Integration	Smart Security & Remote Monitoring	

Security Solutions

RUVARI provides complete security solutions for homes, offices, commercial spaces, institutions and other properties. From surveillance and access control to intrusion detection and centralized monitoring, we design, supply and install reliable systems tailored to your security requirements.

CCTV Surveillance

Door Access Control

Biometric Attendance

Video Door Phone

Fire Alarm & Detection

Intrusion Detection

Alarm Integration

CCTV Surveillance

Complete video surveillance solutions for residential, commercial and industrial environments, built around cameras and recording systems suited to your site.

- HD & IP CCTV cameras
- Dome, bullet, PTZ & specialty cameras
- NVR/DVR recording systems
- Remote monitoring on mobile & computer
- Human & vehicle detection
- Motion detection & smart notifications
- Night vision & perimeter monitoring
- Video storage & backup solutions

Door Access Control

Control and monitor exactly who can enter your premises with secure, convenient access management tailored to single or multi-door environments.

- RFID/card-based access
- PIN/password access
- Fingerprint access
- Face recognition
- Single-door & multi-door systems
- Exit buttons & door sensors
- Electromagnetic & electric locks
- Access management software

Biometric Attendance Systems

Modern attendance and workforce management solutions that give offices, businesses and institutions accurate, tamper-free in/out records.

- Fingerprint attendance
- Face recognition attendance
- RFID/card attendance
- Employee attendance management
- In/out monitoring
- Attendance reports & management software
- Multiple-device & network-based solutions

Video Door Phone & Intercom

Smart visitor management that lets you see, speak with and grant access to visitors from anywhere, on a dedicated panel or your phone.

- Video door phones
- Indoor monitors
- Outdoor calling stations
- Two-way audio/video communication
- Remote door/gate unlocking
- Mobile app integration
- Multi-room & multi-unit solutions

Fire Alarm & Fire Detection

Early-warning fire detection systems engineered to protect people, property and assets with fast, reliable notification.

- Smoke detectors
- Heat detectors
- Manual call points
- Fire alarm control panels
- Sirens & sounders
- Strobe indicators
- Addressable & conventional fire alarm systems
- Fire detection & notification solutions

Security Sensors & Intrusion Detection

Intelligent sensors that detect unauthorized entry, movement and other security events the moment they happen, and alert you instantly.

- PIR motion sensors
- Door & window sensors
- Glass-break sensors
- Magnetic contacts
- Perimeter sensors
- Intrusion detection systems
- Alarm & notification systems

Alarm & Security Integration

Bring CCTV, access control, intrusion alarms and notifications together into one coordinated, centrally monitored security solution.

- CCTV integration
- Access control integration
- Intrusion alarms
- Security notifications
- Centralized monitoring
- Mobile alerts & remote management

CENTRALIZED SECURITY CONTROL

Centralized Monitoring

One coordinated view across connected security systems.

Mobile Alerts

Receive security notifications wherever you are.

Remote Management

Manage access and connected security functions remotely.

Smart Living & Automation

RUVARI delivers complete home and office automation solutions that make spaces more comfortable, convenient, secure and energy-efficient. We integrate lighting, curtains, gates, doors, sensors and other devices into a simple, intelligent control system.

- Gate Automation
- Smart Locks
- Smart Lighting
- Curtain Automation
- Smart Sensors
- Home Integration
- Remote Monitoring

Gate Automation & Barriers

Automate residential and commercial gates for vehicle access that is both convenient and secure, day or night.

- Swing gate automation
- Sliding gate automation
- Automatic boom barriers
- Remote-controlled gates
- Vehicle access solutions
- Safety sensors & obstacle detection
- Automatic closing & access control integration

Smart Door & Digital Locks

Modern access solutions that combine everyday convenience with dependable security and intelligent control.

- Smart door locks
- Fingerprint locks
- PIN/code locks
- RFID/card locks
- App-controlled locks
- Digital door locks
- Smart intercom integration
- Remote access & visitor management

Smart Lighting Automation

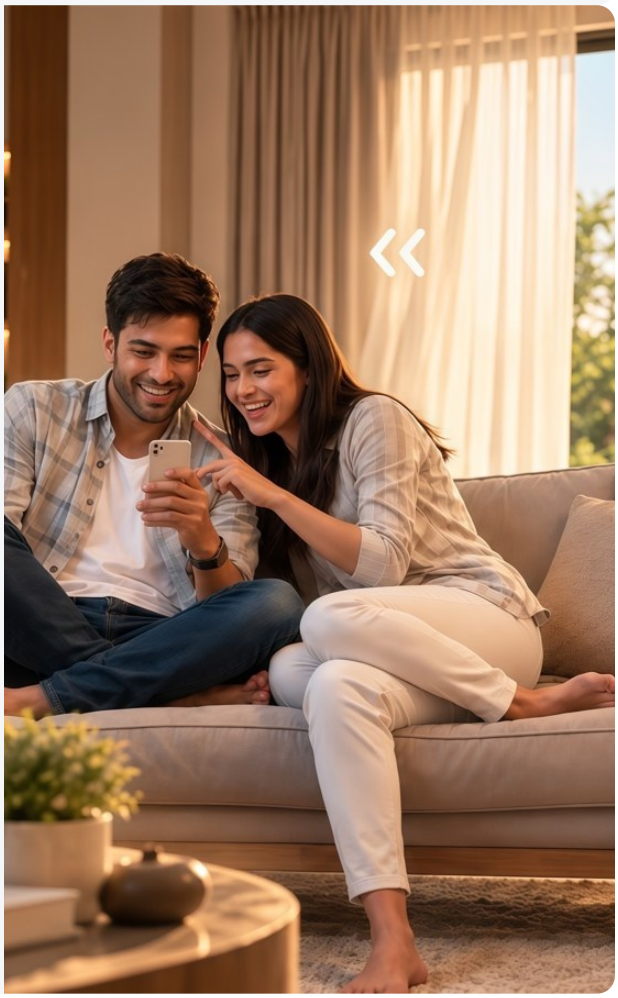

Control and automate lighting to match your lifestyle, schedule and mood, from anywhere in the room or the world.

- Smart switches & dimmers
- Automated lighting
- Motion-based lighting
- Scene-based lighting
- Timer & schedule control
- Remote mobile control
- Voice-controlled lighting
- Energy-efficient automation

Curtain & Blind Automation

Transform conventional curtains and blinds into intelligent, automated systems that open and close exactly when you want.

- Motorized curtains
- Motorized blinds
- Remote control
- App-based control
- Scheduled operation
- Automatic opening & closing
- Integration with smart home systems

Smart Sensors

Intelligent sensors that quietly monitor your home or workplace and trigger the right automation the instant conditions change.

- Motion sensors
- Door & window sensors
- Occupancy sensors
- Temperature & humidity sensors
- Light sensors
- Water leakage sensors
- Smoke & environmental sensors
- Smart automation triggers

Smart Home & Office Integration

Connect lighting, curtains, gates, doors, sensors, security and appliances into one intelligent ecosystem controlled from a single app.

- Lighting
- Curtains & blinds
- Gates
- Doors & locks
- Sensors
- Security systems
- Smart appliances
- Mobile app & voice control
- Automated scenes & schedules

Smart Security & Remote Monitoring

Combine security and automation into one safer, smarter environment you can see and control from wherever you are.

- Smart CCTV integration
- Video door phones
- Smart locks
- Gate automation
- Motion & door sensors
- Remote monitoring
- Mobile alerts
- Integrated access control

SMARTER CONTROL, WHEREVER YOU ARE

One App Control

Lighting, curtains, gates, doors, sensors and security.

Scenes & Schedules

Automated routines that respond to time, activity and conditions.

Mobile & Voice Control

Control connected systems from mobile devices and voice interfaces.

Solar & Energy Solutions

RUVARI provides efficient energy solutions designed to help homes and businesses reduce energy costs, improve energy independence and make better use of renewable power.

Solar Power

Energy Storage

Energy Management

Backup Power

Energy Efficiency

Solar Power Systems

Complete solar solutions for residential, commercial and industrial applications, designed around your roof, budget and load.

- On-grid solar systems
- Off-grid solar systems
- Hybrid solar systems
- Rooftop solar
- Solar panels & inverters
- Solar mounting structures
- System design & installation

Solar Energy Storage

Reliable storage solutions that bank your solar energy for backup power and smarter, round-the-clock energy management.

- Lithium battery systems
- Solar battery storage
- Hybrid inverter systems
- Energy backup solutions
- Battery management systems

Energy Management

Smart tools that let you monitor, manage and optimize how energy is used across your home or business, in real time.

- Energy monitoring
- Smart energy meters
- Load monitoring
- Energy usage analysis
- Smart load management
- Automated energy control

Solar & Backup Power

Integrated solar and battery power solutions engineered for uninterrupted, efficient energy even when the grid isn't.

- Solar + battery systems
- Solar backup solutions
- Inverter systems
- Critical-load backup
- Power management

Energy-Efficient Solutions

Technology-driven solutions that quietly cut unnecessary energy consumption without asking you to change how you live or work.

- Automated lighting control
- Smart energy monitoring
- Occupancy-based control
- Energy-efficient automation
- Intelligent load management

EFFICIENT ENERGY, SMARTER LIVING

Energy Monitoring

Track energy usage and understand where power is consumed.

Smart Load Management

Manage loads intelligently and improve energy efficiency.

Solar + Battery Integration

Combine generation and storage for dependable backup power.

SECURITY • SMART LIVING • ENERGY

One Partner.
Complete Solutions.

From a single system to a fully integrated solution, RUVARI designs, supplies, installs and supports technology built around your space and the way you live and work.
